

WEEK 7 : HANDSON 4 : REACT HOL

- Created a React Application named “officespacerentalapp” which uses React JSX to create elements, attributes and renders DOM to display the page.
- Created an element to display the heading of the page.
- Attribute to display the image of the office space
- Created an object of office to display the details like Name, Rent and Address.
- Created a list of Object and loop through the office space item to display more data.
- To apply Css, Display the color of the Rent in Red if it's below 60000 and in Green if it's above 60000.
